Are you looking for a new opportunity to develop your career?

Make a difference – Shape not only your future, but the environment around you.

We aim to provide a work environment where you can unleash your creativity, innovation and skills while doing what you are passionate about every day.

ABOUT US

EDC was established in 2003 and thanks to our quality-driven approach to engineering and early-adopter ethos with new technology, we have grown during a period when most companies in this sector have struggled. We have continued to increase our workload and deliver quality, innovative engineering.

As pioneers in the design of low-energy, high-performance buildings and systems, EDC fully supports the importance placed on sustainability and welcomes the challenges this presents. We are first BIM Level 2 Certified Consultancy in the UK and Ireland and deliver projects from our three offices in Ireland – Cork, Mid-West & Dublin and our UK office based in London. EDC has also seen significant recent expansion overseas in the African Market.

OUR MISSION

At EDC, our mission is to be progressive for our clients and our employees. We embrace innovation to drive efficiency in construction by leading the way. We cultivate an open, dynamic internal culture where good people and good ideas will always be heard.

EDC is a truly progressive consulting engineering firm. We are industry innovators, striving to deliver the most striking and dynamic work possible for our clients. EDC is recognised throughout the industry as being at the forefront of sustainable design and as a consultancy, it is a way of thinking that we promote and encourage across all design teams.

JUNIOR ELECTRICAL ENGINEER

FULL-TIME
PERMANENT

THE ROLE

For this role, we are looking for a hands-on and focused engineering consultant who can uphold EDC's approach to quality-driven success. Ideally, you will have a minimum of 2 years Building Services Consultancy Design experience and will be a competent user of Amtech/Dialux, Autodesk Applications. BIM experience would be advantageous, along with commercial & residential sector experience.

You will fulfil electrical design work as required, working to project deadlines. You will assist modellers to produce detailed working drawings in 3D and scheme drawings as well as developing the project scope with the design team/client.

This role is primarily office/home based with the occasional representation at EDC client meetings as required. If you can carry out all work in a professional manner, building EDC's excellent reputation in the industry, you can pave your way for a successful career with EDC.

EDUCATION & EXPERIENCE

- Degree qualification in Electrical Design Engineering
- Minimum of 2 years of Electrical Building Services Consultancy Design experience.
- Proficient user of the following:
 - Dialux & Amtech
 - Microsoft Office (Word/Excel/PowerPoint etc.)
 - Autodesk Applications (AutoCAD/Design Review)
 - Commercial sector knowledge/experience a strong advantage.
 - Building Information Modelling (BIM) experience will be advantageous.

KNOWLEDGE & SKILLS

- Competent in the design and specification of electrical building services in a variety of industry and project types, sizes, and complexity.
- Experience and involvement in detailed designs through the full design cycle.
- Knowledge and experience in the following Electrical design areas: Lighting & Emergency Lighting, Small Power and Data, Fire alarms, CCTV & Intruder Alarms, LV Power Distribution and Containment.
- Knowledge of CIBSE, IEC, BS, IS and EN Standards.
- Project management, problem solving, presentation, communication, and IT skills essential.
- Team player with the ability to learn from your colleagues.

Whilst working with EDC you will feel like part of a family – you will have every opportunity to get stuck in and make an impact immediately. We offer a competitive remuneration package with friendly, flexible working policies. We empower our employees, encourage them to be the best that they can be and reward success. Career advancement and professional development is core to how we work and reward our people.

OUR HIRING PROCESS

We know you live a busy life and so, we have adopted a hiring process that is targeted and streamlined. We focus on your fit with EDC as well as your technical skill match.

APPLY – REVIEW – INTERVIEW – OFFER - ONBOARDING

Apply: Find an open role that interests you with EDC via one of our recruitment channels.

Review: Applications are read by real engineering managers who are both experts in interpreting resumes and are familiar with all EDC's jobs within a talent segment—not just the one you applied for.

Interview: We use a competencies-based interviewing process that is intended to help us minimize unconscious bias while also making sure we hire people who will thrive within EDC.

Offer: We ensure we come back as quickly as possible with regards to whether you will be made an offer. If you verbally accept, we will send through an official written offer and begin the onboarding process.
